

Feb. 10, 2016

Present: Angela, Royce, Corey, Mack, Shane, Michael

Joint.js

- Spike prototype - check compatibility
 - how easy is it to work with

- How reliable is it? - online community

- Help with rendering, zooming, printing

- How would we test it

- DOM model - test with Selenium

Offline behaviour

- Google docs - if open, should still be able to view, but not modify

ID2 testing

- UI best methods

- System testing - test harnesses

- Mocking

- Diagram - Test coverage

- Test matrix

Look through requirements

- Reorder if some lower priority requirements are easy to do

- Rate difficulty of each requirement scale of 1-3

- Update requirements each deliverable

Keep Design Document up to date

Requirements - which features are in next deliverable

- difficulty rating
