**Formal Code Review on Mar. 26th**
Reviewing Connor's linkjoining.js
Reviewed by Shane, Matt, Darvin, Corey

linkjoining.js
- Reviewing the targetFollow function
- Could change the magic number (15) to a named variable
- Have all event listeners go to one file (since we have a lot, they are starting to interact with each other)
- Find way to remove the mouseDownOnPaper (LinkTargeter) for when it's done
